A rectangular array consisting of 4 rows and 15 columns of small squares. Each row contains 15 squares, and there are 4 such rows.

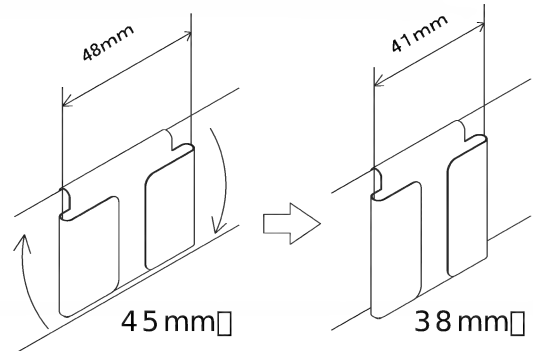

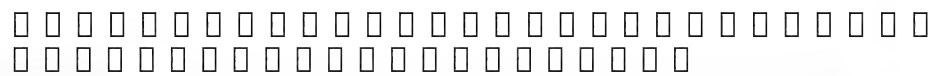

The diagram illustrates the KIKOKUTO device, a rectangular box with the brand name 'KIKOKUTO' printed on its top surface. The device features several connection points and components:

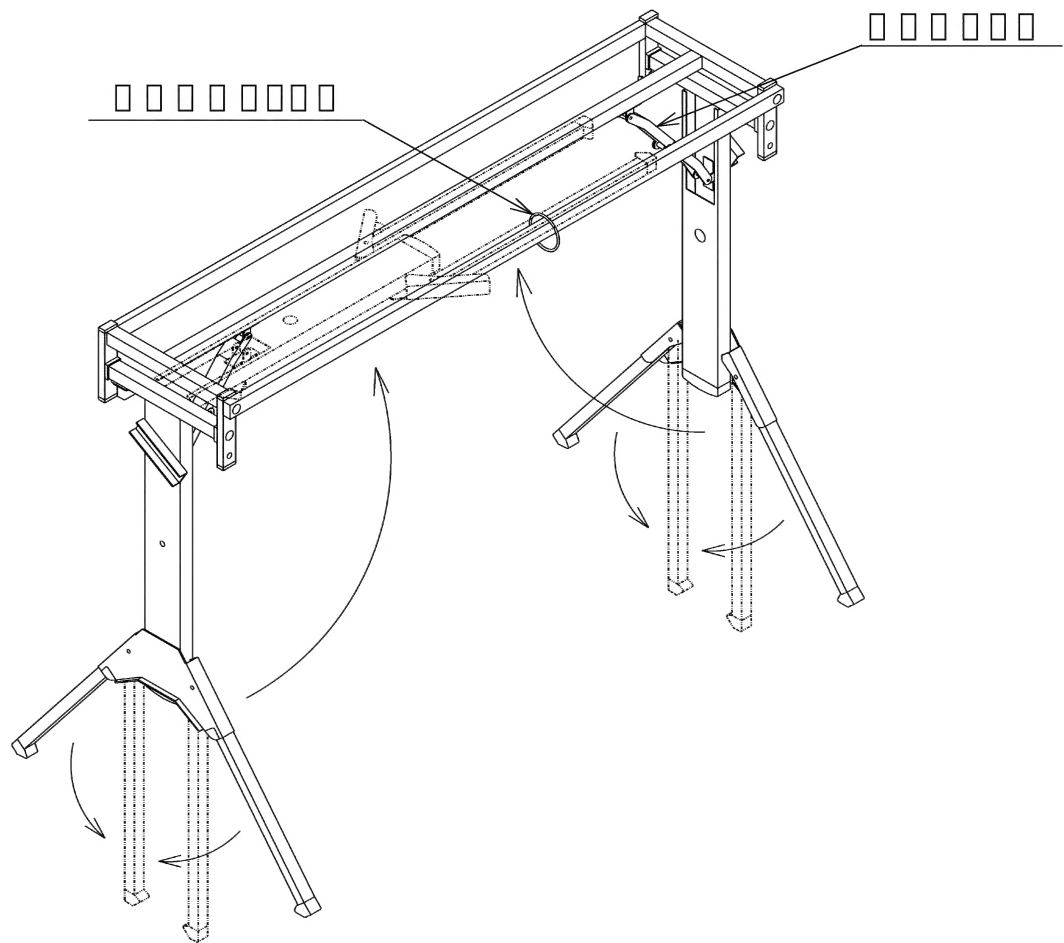

- Top Surface:** A series of five small rectangular ports or indicators are located on the left side of the top surface.
- Front Panel:** A large circular opening is visible on the left side of the front panel, indicated by a dashed line. To the right of this opening is a small rectangular port.
- Right Side:** A series of five small rectangular ports are located on the right side of the front panel.
- Bottom Surface:** A series of ten small rectangular ports are located along the bottom edge of the device.
- Internal Components:** A dashed line indicates the internal structure of the device, showing a central component and a series of smaller components connected by lines.
- External Connections:** A series of lines extend from the bottom of the device, leading to a larger rectangular component with a circular port on its side.
